WHITE ZINC PAINT,

after several years trial in Europe and the United States,
both as inside and cut side paint, has been found to retain
its original beauty and protective preprites longer than
any other paint; and for whiteness and brilliancy it stands
unrivaled; and as the same weight will cover from 40 to
50 per cent more surface than the anne weight of lead
paint, it is really much cheaper to the consumer. It is
warranted free from adulteration, and no stronger evidence can be afforded of its superiority than is derived
from the fact that the French Government, after iong continued experiments, has adapted its use in all its buildings
sad public works. It has no poisonous properties, like
other pigments, so injurious to the health of workmen and
of families occupying rooms recently painted. As an inside paint, it will not turn yellow, even when exposed to
the subphurous gases of coal free or the foul air of ships.

Their White Zinc ground in variash produces the porcelam finish. Their

have peculiar drying properties, which in a few hours form a hard and solid metallic coating upon wood, brick, iron and other metallic surfaces, remarkable for their fire-proof properties. They are woll adapted for marine purposes, having been found to resist the corroding action of all water, so destructive to other paints. How disease to cure or miss;
When a bestor should be sued;
When a debtor should be sued;
When a debtor should be sued;
Whom to doubt and whom to trust;
Who is false and who is just;
By what process money lost
Is retrieved at little cost;
How, when robbed, to find the wealth
Taken from you thus by stendth;
How to tell your foeman's thought,
And his schemings bring to nought;
How to get a glorious wife,
And achieve success in life;
How to cluster round your path
All of good unmix d with wrath;
And your life, e'en to its close,
